

CAREER FAIR AT KAMAL MODEL SCHOOL

The responsibility of the institution is beyond giving education to students to qualify their academic with flying colors. Kamal Model Senior Secondary School took the additional responsibility to support their students in making a right choice of their career in future by organizing an informative and enriching 'Career Fair' in the school.

The students of class 8th, 9th and 11th class presented multiple job options available for students of 10th and 12th class after passing 10th or 12th class through PPT presentations, panel discussions, poster presentation and street plays. 13 stalls presented 146 career options in a very interesting and exciting manner giving details about qualification and skills required, top institutes and universities, salary, scope and important personalities in the concerned field. Professor M.C Sharma, Ex- Director of IGNOU addressing the students said, 'I wish I was a student of this school where students are exposed to joyful learning through such informative and interactive sessions.' He appreciated the commendable performance of the students. The students were advised not to make decisions based on family expectations or peer pressure but their own interest and skills.

Indeed this Career Fair was a huge success as it gave students a clear perspective for the long run. On Children's Day the participants received awards and certificates for their innovative ideas, creativity and dedication.
