## *Chairman's Aphorism*

*Women were not allowed to even step out of their houses in ancient India, but times are changing. Along with changing times, people's thinking is also changing. They wish to educate their girls and see them succeed in life.*

*There are various factors that make it impossible for girls to get an education in our country. Firstly, the poverty rate is alarming. Even though education is being made free, it still involves a substantial cost to send girls to school. Therefore, families who are struggling to make ends meet fail to pay the educational expenses of their children. If we wish to see India progress and develop, we need to educate our girl child.*

*They are indeed the future of our nation. Moreover, when they become educated, they will not have to be dependent on others for their livelihood. Thus, we see how one educated woman can bring so much change in her life along with the others as well.*

## Values to create a meaningful character

**A School which focuses on Experiential Learning, Innovative Practises and Creative Output- Kamal Model Sr. Sec. School**

Set up by Sankalpa Educational Welfare and Charitable Society (Regd.) in 1993 Kamal Model Sr. Sec. School, Mohan Garden, New Delhi, is a premier institute providing a platform for experiential learning, innovative practices, creative output with problem solving and collaborative approach. The school lays great stress on the development of latent faculties of mind of students by providing them counselling for choosing right career, which suit their aptitude. Education is about far more than what happens within the four walls of classroom.

The Management and staff of school believe that teachers are the backbone of society who acts like parents and instill more values to create a meaningful character. The real goal of education is to equip stu-

dents with a scientific temper and to provide skills to cope adequately with life so that they can become good human beings and worthy citizens. Teachers at KMS have shown their firm dedication and strong commitment to excellence in a caring environment. Due to keen interest taken by the chairman VP Tandon, Principal and elected Member of CBSE Governing Body Vandana Tandon and teaching staff of the school, the school is reflected in the remarkable performance of students in academic as well as in co-curricular activities ever since its inception.

The students of the school have brought laurels by figuring in the merit lists of competitive entrance examinations and consequently getting admission to prestigious engineering, medical and management institutions along with NDA. Participation in Olympiad of different subjects conducted by National and International agencies is a regular practice of the school. Well-equipped labs with state of art infrastructure are an added attraction. These labs enable the students to testify their theoretical knowledge through practical. KMS Taekwondo Championship 2018 and CBSE Athletics Meet - 2019. KMS was adjudged the champion of Taekwondo Championship and clinched runner up trophy of overall champion in Athletics Meet. In zonal sports competitions also, the school was adjudged the best with 32 trophies in academic session 2019-20. Innovative ideas, hard work rendered and untiring efforts made by the school family enabled the school reckoned as one of the best schools of west Delhi and secure a pride place on the educational map of public schools in Delhi.

# अयोध्या की रामलीला

अयोध्या की ऐतिहासिक रामलीला अब अपने रोमांचक मोड़ पर आ चुकी है। 17 अक्टूबर से शुरू हुई रामलीला का आगाज जिस उमंग और उत्साह के साथ हुआ, उसे दर्शकों ने सराहा। पहले दिन के प्रसंग से ही अयोध्या की रामलीला ने लोगों के दिलों जगह ही नहीं बनाई बल्कि उसे आत्मसात भी किया। अयोध्या की रामलीला के पांचवें दिन फिल्माए गए प्रसंग राम वनगमन के दृश्य देखकर लोग भाव-विभोर हो उठे। इसके अलावा सीता हरण, शूर्पणखा संवाद और रावण-गिद्धराज का युद्ध भी लोगों के बीच आकर्षण का केंद्र रहा!

नवरात्रि पर्व के बीच अयोध्या में लक्ष्मण किला से इसका लाइव प्रसारण राष्ट्रीय प्रसारक दूरदर्शन के माध्यम से किया जा रहा है। 17 अक्टूबर से 25 अक्टूबर तक नवरात्रि के 9 दिनों तक हर दिन लाइव कार्यक्रम को कवर किया।

रावण का किरदार फिल्म स्टार शाहबाज खान निभा रहे हैं तो फिल्म स्टार विन्दु दारा सिंह हनुमान और असरानी नारद मुनि, रजा मुराद अहिरावण की भूमिका में हैं वहीं अभिनेत्री रितु शिवपुरी केकई, अभिनेता राकेश बेदी विभीषण की भूमिका में नजर आ रहे हैं। रामलीला का मंच फिल्मी दुनिया के कलाकारों से सजा है। शनिवार की शाम अयोध्या में रामलीला का मंचन शुरू हो गया, दूरदर्शन ने रामलीला का लाइव प्रसारण कर श्रीराम को घर-घर पहुंचा दिया।

# VALUE OF READING HABIT

## Reading improves concentration.

Children have to sit still and quietly so that they can focus on the story when they are reading. If they read often, they develop the skill to do this for longer.

## Reading exercises our brain.

Reading is a much more complex task for the human brain rather than watching TV, for example. Reading strengthens brain connections and builds NEW connections.

## Reading develops a child's imagination.

As we read our brains translate the descriptions we read of people, places and things into pictures. While we are engaged in a story we are also imagining how a character is feeling. Young children then bring this knowledge into their everyday play.

## Reading is a fun.

A book or an e-reader doesn't take up much space and is light to carry, so you take it anywhere so you can never be bored if you have a book in your bag.

# How to CHOOSE a book!

## Look!

Browse the bookshelves – it's a good idea to have a good look at the books.

## Check out the COVER!

Does it look interesting? What is the title? Who is the author? Is it like books you've tried before?

## READ the blurb!

The blurb is the short paragraph on the back of the cover and tells you something about the story. What does the blurb tell you? Does it make you want to read it?

## Think about the GENRE

This is the type of story found in the book. This could be comedy, adventure or fantasy! What other kinds of stories have you enjoyed?

## TRY it out

Read a few pages of the book. Do you want to know what happens next? It's fine to put it back if it doesn't feel right.

## ASK

...the school librarian, teachers, parents and your friends to recommend a book!

## The RIGHT One

Use the five finger test to help decide if it's the right book for you. Open the book and read a page. Every time you find a word you don't know count one finger. If you get to five the book is likely too hard, so put it back and try another one.

Books are  
the best  
friends of  
kids.

Through their special love and care, grandparents keep a family close to heart. To honour them students of class I and class II celebrated Grandparents Day.*

*The celebration began with series of fun games. Children were very excited to see their grandparents participate in the games and cheered them wholeheartedly. The grandparents were very supportive and brought out the child in them through their active participation. They rejoiced and enjoyed all the games.*

*The grandparents shared their invaluable life lessons through their nostalgic experiences. The students and teachers were very happy to see the happiness ushering in the faces of all the grandparents who made the most of this wonderful day with happiness. All the games were thoughtfully planned by the teachers so as to make the special day memorable for all the grandparents.*

*By this students learned to worship to their parents and grandparents. The legacy of our culture is passed on to the children through grandparents who devote all their live for grandchildren.*

# Scientist

On the occasion of world science day, various science activities were organized, for class -2 students to learn various science concepts and to calculate scientific attitude and research mindedness.

Today, student's performed an experiment on weight. To introduce this concept, we simply practice comparing weights of two different materials by tying salt and cotton in two different handkerchief and later dipping it into water and letting student to see which weighed more.

For students, this class was full of new experiences, surprise, new learning, new queries and most importantly to develop their keen interest in science and to make them understand that everything has science behind it which is the magic for unknowns.

# VIRTUAL FIELD TRIPS

“Given a rich environment, learning becomes like the air” Virtual movie day out was organised for students of class I and II to experience a day to a movie theatre.

It was initiated to impart good learning through movies.

The movie “Anastasia” engaged the students and was a significant break from their daily routine. Students entered the zoom class with their movie ticket.

The show started with virtual buying of popcorns, travelling to the mall with their friends and standing on queue to enter in the theatre. It was great virtual experience for students as they enjoyed every moment of the movie. Intermission was also given to them in which they had their snacks.

Through the movie students learned different cultures, different thought process and got the inspiration that Always strive to be better irrespective of their current Situation.

**Animal welfare day celebration**

**Date –3-Oct – 2020**

**We can judge the heart of a man by his treatment of animals.**

It is an international day to mark the importance of animal rights and welfare of the animals. The day calls for action and awareness about the well-being of animals and to improve the standards of welfare around the world. The day is not just for the domesticated animals but all wild animals, endangered species, and also those animals who are threatened by the environmental devastation or lack protection.

Animal welfare is important because there are so many animals around the world suffering from being used for entertainment, food, medicine, fashion, scientific advancement, and as exotic pets. Teachers of Kamal model school celebrated today's 3 October as animal welfare day this and teachers explain about Every animal deserves a good life where they enjoy the benefits of the Five Domains.

Teachers of class 1 and 2 conducted virtual picnic of zoo, children's with their parents they all learn lots of things about animals habitat their surroundings and about importance of welfare of animals.

Space...!

Who cannot fantasize about how things are in space.

Not everyone gets a chance to be there. So, we took the kids of kindergarten on a virtual tour to space where they saw a lot of things like planets, heavenly bodies and the objective of organizing such a virtual trip to space was to develop their curiosity and provide them an exposure to something that they would fantasize.

The students were able to learn about the Moon Moon, the Sun and our planet Earth. Their cognitive thinking was triggered during the session and they were curious about the existence of aliens too. Overall, it was a nice experience.

Class- 1 & 2

An opportunity was given to kids of class 1 & 2 to express their feelings by writing how they feel and observe about the Anastasia movie characters. It was a joyful learning experience for the little toddlers. As Kamal Model School always focuses on holistic development of students. It was an amazing writing exercise where students wrote their heart out about how they feel and think about the movie characters. The creative writing exercise taught students the importance of observing one's characters closely. Once the ideas have formed, it is important to indulge in free writing and record all thoughts. The students especially enjoyed as they love writing their heart out in paper.

# Means of Transport

# गिनती का अभ्यास

## कक्षा - प्रथम

हम सभी के जीवन में गिनती का बहुत महत्व है, इसीलिए गिनती या गणना को जानना सीखना बहुत आवश्यक है। प्री प्राइमरी लेवल से ही गिनती बुलवा कर लिखवा कर अंकों की पहचान करवाने का यही उद्देश्य होता है कि हम उसे बावस्थता से ही सीखकर उसका उपयोग अपने दैनिक क्रियाकलापों में करें। बच्चे का जैसे जैसे विकास होता है, उसी के अनुसार गिनती की एक्टिविटी भी बदलती रहती हैं। यहां 1st स्टैंडर्ड के बच्चों को कहा गया कि वो गिनती का एक चार्ट बनायें। अंकों के सामने ही कोई वस्तु उतनी ही संख्या में बनाएं या चिपकाएं। जिससे उन्हें संख्या का व्यवहारिक ज्ञान हो सके। लगभग सभी बच्चों ने अत्यधिक मेहनत करके इस दिए गए काम को पूरा किया है। उनके काम को देखकर सहज ही पता चल रहा है कि वो अच्छे से अंकों को लिख और समझ रहे हैं उन्हें अंको के मूल्य का ज्ञान हो रहा है। इस कार्य का उद्देश्य भी यही था। विद्यार्थी आगे और भी अच्छा करेंगे यह विश्वास है। सभी माननीय अभिभावकों के प्रति आभार जिन्होंने इस महत्वपूर्ण काम में अपना बहमल्य योगदान दिया।

## IF I HAD A TIME MACHINE- REFRAMING PAST AND KNOWING THE FUTURE

To develop the creative and imaginative power of the child class 2 students got a chance to showcase their imagination power through a "Drawing competition"- "If I had a time Machine". The aim of the competition is to strengthen the imagination power of the child and also to motivate their imagination and creative skill.

Students of class 2 have drawn beautiful imagination on canvas .They also discussed the thing they want to reframe in the past and also what they want to know about the future. This kind of activity will help them to have a wide thinking in accordance to their age the little participants showed a mesmerizing performance.

Students enjoyed the competition and also they were eager to know more about the time Machine. Students thought beyond their thinking like -

- IF they had a time Machine they would stop corona to spread in the world.
- If they can go in future they will find out a injection to cure corona.
- They also want to see dinosaurs era from the past.

Some of them also showed that how they miss their school and also want to go school again.

# GANDHI JAYANTI

*GRAND CELEBRATION BY KAMAL MODEL SR. SEC SCHOOL*

Gandhi Jayanti is an event celebrated in India to mark the birthday of Mahatma Gandhi. It is celebrated annually on 2 October, and it is one of the three national holidays of India. The UN General Assembly announced on 15 June 2007 that it adopted a resolution which declared that 2 October will be celebrated as the International Day of Non-Violence.

Mohandas Karamchand Gandhi popularly known as Mahatma Gandhi was born on October 2, 1869, in Porbandar, Gujarat and since he was a small child, he always expressed strong feelings of nationalism and patriotism.

Originally a lawyer, Gandhi united everyone with his ideologies and feeling of patriotism during India's fight for freedom. He was a man who loved peace and non-violence and this alone, gave everyone the strength to unite and fight for their homeland. As a result, several joined him as he had led the Dandi Salt March in 1930 and in 1942; he launched the Quit India movement as a call to immediately drive the British out of India.

**Diwali festival is celebrated on the day of Kartik Amavasya. The date of Deepawali festival is determined according to Hindu calendar, but this festival usually falls in the month of October - November. Diwali is the "festival of lights" which is celebrated in various regions across India. This festival of Deepotsav is of 5 days (Dhanteras, Hell Chaturdashi, Amavashya, Kartik Shukla Pratipada, Bhai Dooj) so it starts from Dhanteras and ends at Bhai Dooj. In this, the most prominent third day is considered, on this day the main worship of Goddess Lakshmi and Lord Ganesh is done. Diwali, the festival spiritually signifies the victory of light over darkness, knowledge over ignorance, good over evil. Diwali is by far the most enthusiastically enjoyed festival in India. cut down the use of crackers and encourage kids to partake in more fun and traditional activities like flower arrangements, puppet shows, music/dance competition and drawing/coloring. Diwali is the most loved festival, and we enjoy it very much. To honour them the pre primary section of Kamal Model Senior Secondary School Diwali Celebration. It was a successful event indeed, and the School as always would be pleased to organize many such more events.**

## World Environment Day 2020: Positive Impact of COVID-19 Lockdown on Environment

After the coronavirus lockdown commenced, there have been slight changes in the environment. The question about COVID-19 pandemic being a godsend for human beings or not can not be answered, but it would seem to be one for the environment.

Following the outbreak of the coronavirus, many countries had adopted lockdown procedures that stopped people from moving out and for shops and other establishments to close down. As World Environment Day 2020 nears, we take a look at the positive impact the COVID-19 lockdown has had on the environment. A bit about World Environment Day, it was first held in 1974 and is celebrated every year on June 5 to encourage awareness and action for the protection of the environment. It stood for raising awareness about issues related to the environment like air pollution, marine pollution, global warming, human overpopulation, etc.

Before the start of the COVID-19 pandemic, the air around us had been deemed very toxic to breathe in due to the amount of greenhouse gases that had been emitted over the centuries. The Earth faced rising temperatures, which in turn led to the melting of glaciers and rising of sea levels.

Great teachers have the ability to change lives for the better.

Teachers can act as a support system that is lacking elsewhere in students' lives. They can be a role model and an inspiration to go further and to dream bigger.

They hold students accountable for their successes and failures and good teachers won't let their talented students get away with not living up to their full potential..Teacher of all walks of life and subjects have the ability to shape opinions and help form ideas about society, life and personal goals. Teacher can also expand students limits and push their creativity.

Teaching is a tough job, but it is one where you can make the most impact in another person's life.

Teacher are arguably the most important members of our society. They give children purpose, set them up for success as citizens of our world, and inspire in them a drive to do well and succeed in life.

The children of today are the leaders of tomorrow, and teachers are that critical point that makes a child ready for their future.

Teachers increase productivity and creativity of students and therefore, of future workers. When students are pushed to be creative and productive, they are more likely to be entrepreneurial and make technological advances, ultimately leading to economic development of a country

जो लगभग एक वर्ष होने को आया पूरा विश्व कोरोना कोविड -19 से जूझ रहा है । चीन के वुहान शहर में अनायास ही वहाँ का स्थानीय प्रशासन हरकत में आता है और इस शहर जो एक अंतरराष्ट्रीय महानगर है को सभी से खाली करने को कहता है । कारण कोरोना संक्रमण के रोग के लक्षण वहाँ के निवासियों पर प्रकट होने लगे थे । लोगों ने बिना आगे पीछे देखे चीन छोड़ना शुरू किया और देखते ही देखते यह वैश्विक महामारी में परिवर्तित हो गया ।

हमारे देश में भी कोरोना ने दस्तक दी सरकार ने कुछ देर से मगर इस पर सख्त एक्शन लिया और सारे देश को लोकडाउन कर दिया । तब से आज तक लाखों लोग संक्रमित हुए लाखों ही ठीक भी हुए । दुर्भाग्यवश मरने वालों की संख्या भी कम नहीं । बच्चों और वृद्धों पर इसका दुष्प्रभाव ज्यादा है जल्द है ।

विश्व स्वास्थ्य संघठनों ने हमें बार बार हाथ धोने , मुँह पर मास्क लगाने दो गज की दूरी बनाने की सलाह दी । इससे कोरोना संक्रमण के संभावित खतरों से बचा जा सकता है । जिन्हें कोरोना हुआ है वो घबराएं नहीं स्वयं को एकांतवास में ले जाएं और चिकित्सकों के परामर्श से स्वयं का इलाज करें । रोग प्रतिरोधी दवाओं जड़ी बूटियों का सेवन करें ।

स्वस्थ रहें कोरोना के साथ रहना एक विश्वास है सारी दुनिया इसके इलाज को ढूँढने में जुटी है अभी तक इसकी उपचार वैक्सीन नहीं बनी । इसलिए हमें स्वयं को मजबूत बनाकर रोग से सतर्क रहते काम करने हैं ।

Uncertainty is all around us, never more so than today. The current COVID-19 pandemic has heightened uncertainty over the economy, employment, finances, relationships, and of course, physical and mental health. Yet as human beings, we crave security. We want to feel safe and have a sense of control over our lives and well-being. Fear and uncertainty can leave you feeling stressed, anxious, and powerless over the direction of your life. It can drain you emotionally and trap you in a downward spiral of endless “what-ifs” and worst-case scenarios about what tomorrow may bring.

**Water, water everywhere, but not a drop to drink.” You must have heard this phrase many times in your life. It means that although there is water all around us, in Earth’s oceans, seas, lakes, rivers, etc., most of it is not drinkable water! The oceans cover up more than 70 percent of all of the Earth’s surface, which is why it is very easy to raise the question – then why do we say that there is a shortage of water? It is because the water in the oceans is so salty that it is not safe to drink it.**

**It is a common saying that there is power in numbers, which means that if all of us get together and do our small parts in saving water, we will surely be able to do so collectively. While individual acts of saving water can do little, if all of us waste less water, or more judiciously consume water, it will all add up to a greater effort.**

**Thus, water’s importance is invaluable in our lives and the lives of all the species that exist on Earth. It is our responsibility to take care of our planet, and saving water in any way that we can is one of the best ways to do that. We must always remember that the Earth is our home, and we must always take care of our home and keep it clean and peaceful to live in**

**Unity in diversity" means the existence of integrity despite the various inequalities. India is a better example for this concept of "Unity in diversity". We can see here very clearly that on the one side of India, namely, different religions, community, caste, language, culture, life style, way of wearing apparel, trust in God, worship with samarasata under one roof People of text-like manner etc. live together. People living in India are a mother's child whom we call the mother of India. India is a famous and big country in the world where different religions like Hindu, Muslim, Buddhist, Sikh, Jain, Christian and Parsi live together but all trust one principle of religion and order. People here are terrified of God by nature and rely on the purification of soul, reincarnation, salvation, heaven and hell. Without harming people of any religion, people celebrate Holi, Diwali, Id, Christmas, Good Friday, Mahavir Jayanti, Buddha Jayanti etc in a very peaceful manner**

**RIYA KAPOOR**

**Our environment is our surrounding area and something that sustains us. It is the natural condition in which an organism, plant or animal grows and prospers. Our environment shields us and helps us grow into individual beings. Saving our environment is vital for sustaining humanity because, without a clean environment, none of us will survive.**

**A healthy environment has fresh and bacteria-free air and is not the breeding ground for diseases. To protect our environment, we need to know what we should defend. Humankind has advanced in many ways, but in our race, we have compromised our natural environment and become the most intelligent and technologically superior species on earth. Large areas of the forest have been cut down to provide residential places to humans. We have cut down trees at our will to make paper and furniture. Valuable timber and trees with medicinal properties have fallen prey to the slash and burn farming culture**

**The Value of Time: How Much is Your Time Really Worth?**

Not all uses of time are equal, and this simple truth can make a big difference in life. People who spend their time doing more profitable work make more money. People who spend their time investing in others build better relationships. People who spend their time creating a flexible career enjoy more freedom. People who spend their time working on high-impact projects contribute more to society. Whether you want more wealth, more friendship, more freedom, or more impact, it all comes down to how you spend and value your time.- NIKITA MADAN

I have stored some thoughts of mine,  
lend me your ears to judge this, fine!

Man proposes and God disposes,  
life is a bed of thorns not roses.  
Days may pass in pearls of laughter,  
nights may come with gloomy disaster.

he thanks the god in gay rosy days,  
But in misery unholy are his ways.  
A patient player never loses his game,  
he performs his duty with intense delight,  
He never minds what others say,  
while the sun shines he makes his way.

Noble deed is the seed of life  
nothing eclipsed and all is
