Chairman message

"Character cannot be developed in ease and quiet. Only through experience of trial and suffering can the soul be strengthened, ambition inspired, and success achieved."

- Helen Keller

The value of looking back is proportional to our ability to identify our strengths in order to build on them, to recognize our achievements and share them with our whole team. The conclusions we draw from the past then allow us to draft a promising roadmap for the future.

The main focus of KMS is to empower the students with sound knowledge, wisdom, experience, life values and methodological thinking both at the academic level and in the highly competitive global world. The all-round progress of our students is of paramount importance and our most cherished motto as it will help them to empower better India through education.

Our aim is to work unanimously to unleash inherent intellectual and emotional capacities of all students, who pass through the gate of KMS.

I extend my warm wishes to the Principal, staff and students of KMS on the road of excellence.

"May the sapling grow into a sturdy tree and spread its branches."

Thank you and stay blessed!

Dr. Ved Prakash Tandon

Principal's message

Dear Reader,

“Concentrate all your thoughts upon the work in hand. The sun’s rays do not burn until brought to a focus.” – Alexander Graham Bell

The world today is changing at such an accelerated rate that it is beyond anyone’s imagination and we as educators need to pause and reflect on the educational system as a whole. The pandemic has taught us to live in an enterprising world where sorting unforeseen problems or finding new ways for doing tasks have emerged as the new norms of work. The rapid change in the use of technology opened new avenues for teaching and learning for all of us.

Our school has not only carved a niche but also consolidated its repertoire for offering a high-level challenge equally accompanied by high levels of support. For this, I compliment the luminescent efforts of my teaching and non-teaching staff who render their services from the nascent hours to the winding notes of the day. A committed and supportive management, dedicated teachers, co-operative parents blend harmoniously to create a child centric environment in the school. And together we aim to script a success story for every child.

Armed with the motto “Rooted in Knowledge” we march with a fresh approach to mould our students to become amenable erudite members of our society with well-founded morals and integrity.

Wish you all the best!

Dr. Vandana Tandon

Independence Day

Our's is a land of sages,
Known for bravery for ages.
None can with it compete,
Its culture none can beat.
Whatever caste or religion,
All live here in unison.
With rivers, sweet fountains,
it's a land of high mountains.
Its green forests are pretty,
And are source of prosperity.
Let's for it work hard,
For its safety, be on guard.

Independence Day

Independence Day is marked as the occasion to celebrate the countless sacrifices and struggles our freedom fighters made to make India independent from the British rule. It is observed as a national holiday with a flag hoisting ceremony, parade and singing the national anthem with patriotic spirit. It was on August 15, 1947 that India was freed from British colonialism by gaining independence. This year the day will be celebrated at the Red Fort with the address of our honourable Prime Minister Narendra Modi in the presence of all Olympians who won medals at the Tokyo Games 2020. Due to the pandemic, the event will be restricted to the public with no cultural performance. Usually, the day is observed with parades and pageants showcasing the scenes of independence struggle to the cultural diversity of India. This Independence Day, let's pay our tributes to all those brave freedom fighters, and leaders who gave up everything for the sake of our motherland.

The theme for this year's 75th Independence Day is 'Nation First, Always First'. Though online, we at KMS celebrated this special day in a unique way. As part of the 'Azaadi ka Swaran Mahotsav' movement initiated by our honourable Prime Minister, each one of us sang our National Anthem and made a video. On uploading the video, we received a certificate which made us all proud to be Indians. There was also a quiz on our history. Though a bit tough but we learnt a lot about our country through it. We also had an activity to find out about freedom fighters from different states in the country. All in all, this year the celebrations of this day were very different from the previous years.

Friendship Day

YOU CAN COUNT ON ME

A friend keeps a lot of importance in our life, and everybody enjoys the company of a friend. True friendship is tough to get. Through every hardship and failure, the faithful friend will stand by. They will care for you every time, and gaining a true friendship is a real present.

Friendship means familiar and liking of each other's mind. People who are friends talk to each other and spend time together. They trust one another and also help each other when they are in trouble or are hurt. ... If the bond is very strong, they are called best friends.

WE mark the day by tying a friendship band on our friends' wrists while some believe in spending quality time with their chosen family. But this time we make virtual cards and bands of our dear ones.

True friends are like diamonds—bright, beautiful, valuable, and always in style.

International Day Commemorating Victims of Acts of Violence

The International Day Commemorating the Victims of Acts of Violence Based on Religion or Belief, observed on August 22, emphasizes the significance of aiding victims of religious persecution as part of the UN's efforts to promote Human Rights related to religious belief freedom. It was first made official in 2019. The establishment of the day was a direct response to the ever-growing issue of religious or belief-based violence, particularly in its most serious expressions of international crimes such as those against humanity and even genocide.

The United Nations strongly condemns the ongoing violence against religious communities. To mark this day, the United Nations pledged to reiterate their unflinching solidarity for the victims, which they will express by doing all in their ability to prevent such attacks and bring those guilty accountable.

Students of class 8 expressed their views through self made posters .Their posters basically portrayed the idea that all have the right to profess the religion of their choice and none should inflict violence on others.

Women's Equality Day

WOMEN'S EQUALITY DAY

Women's Equality Day is celebrated in the United States on August 26 to commemorate the 1920 adoption of the 19th amendment to the United States constitution which prohibits the states and the federal government from denying the right to vote to citizens of the United States on the basis of sex. It was first celebrated in 1971, designated by Congress in 1973, and is proclaimed each year by the United States President.

This day is celebrated to recognise the journey of women to achieve equal standing in a male-dominated society.

The date was chosen to commemorate the day in 1920 when Secretary of State Bainbridge Colby signed the proclamation granting American women the constitutional right to vote. In 1971, following the 1970 nationwide Women's Strike for Equality and again in 1973, as the battles over the Equal Rights Amendment continued, Congresswoman Bella Abzug of New York introduced a resolution to designate August 26 as Women's Equality Day.

Woman is the companion of man,
gifted with equal mental capacity.

Small Industry Day

आपके बच्चे या झोले बेरोजगारी की माह,

Happy International Small Industry Day

लघु उद्योग एक कदम आत्मनिर्भरता की ओर भारतीय सांस्कृतिक विरासत का एक स्वरूप कृषि है तो दूसरा लघु उद्योग। मध्यकालीन भारत में लघु उद्योग का विशेष महत्व था परंतु ब्रिटिश सरकार के कारण लघु उद्योग व्यवस्था पूरी तरह से चरमरा गई थी। भारत सरकार ने जब भी कोई योजना छोटे-मोटे रोजगार को प्रोत्साहित करने के लिए जारी की है उसमें संपूर्ण माइक्रो, स्माल, मीडिया सेक्टर को ध्यान में रखते हुए जारी की है। इसलिए आज भारत सरकार ने समाज के प्रत्येक वर्ग को उद्योग के लिए प्रोत्साहन देने का प्रयास किया है क्योंकि जिस विरासत का पूरे विश्व पर डंका बजता था उसी लघु उद्योग को भारत सरकार के द्वारा पुनः स्थापित करने के लिए प्रोत्साहित किया जा रहा है। सरकार की कई नई योजनाओं के आधार पर लघु उद्योग को विशेष रूप से लगाने के लिए लोगों को लोन की सुविधा भी उपलब्ध कराई जा रही है। लघु उद्योग का अर्थ छोटे मोटे काम धंधे जैसे साबुन बनाने का काम, जूते चप्पल बनाने का काम, पैन पेन्सिल, कापी, किताब इत्यादि बनाने के काम में लगाते हैं। इसीलिए कमल मॉडल स्कूल के विद्यार्थियों ने लघु उद्योग के कारीगरों का उत्साह बढ़ाने के लिए सुंदर चित्रों के माध्यम से उन में सकारात्मकता जगाने के लिए चित्रांकन शैली का प्रयोग किया है और साथ ही आत्मनिर्भर भारत के सिद्धांतों को अमल में लाते हुए वह लोकल फोर लोकल का संदेश चित्रांकन शैली, निबंध शैली, कवित्व शैली तथा फोटोग्राफी के माध्यम से प्रशंसनीय प्रयास किया है। सहयोग के लिए सभी अभिभावक व छात्र बधाई के पात्र हैं।

World Organ Donation Day

13 AUGUST

Divyansh Ojha

8A

Organ donation in India is regulated by the Transplantation of Human Organs and Tissues Act, 1994. The law allows both deceased and living donors to donate their organs. It also identifies brain death as a form of death. The National Organ and Tissue Transplant Organisation (NOTTO) functions as the apex body for activities of relating to procurement, allotment and distribution of organs in the country. Although India has performed the second largest number of transplants in the world in 2019 (after United States), it lags far behind the western nations like Spain (35.1 pmp), United States (21.9 pmp) and United Kingdom (15.5 pmp) in national donation with a donation rate of only 0.65 per million population (2019) due to its huge population. According to the World Health Organization, only around 0.01 percent of people in India donate their organs after death. Some of the reasons behind such poor performance are lack of public awareness, religious or superstitious beliefs among people, and strict laws.

In 2019, the Government of India implemented the National Organ Transplant Programme with a budget of ₹149.5 crore (US\$21 million) for promoting deceased organ donation.

Class 8th Activity- Resource Sustenance

There is a thoughtful quote by Theodore Roosevelt-“The nation behaves well if it treats the natural resources as assets which it must turn over to the next generation increased; and not impaired in value”. With this quote in mind, class 8th students of KMS decided to spread awareness for the conservation of 3 important components of our earth, namely- Land, Soil and Water. For this they prepared beautiful posters which clearly picturised the adverse effects of human activities on the natural resources and what all could be done to preserve these natural components for the survival of life on earth. Our students tried to give a message that if we do not pay attention towards the conservation of natural resources, then it would be difficult for us to survive on the earth. So it is the duty of all of us to bring out methods through which we can conserve land, soil and water.

Class VIII Activity - Idioms Teacher Guide - Pushpita Ma'am and Paramjit Ma'am

As we all know that English today is an integral part of our personality and in order to communicate our thoughts clearly and effectively, we tend to use idioms. An Idiom is a phrase or saying commonly used to express certain ideas or opinions. Idioms have a meaning not deducible from those of the individual words. Idioms may seem complicated at first, but they are a lot of fun to learn as the students of class 8th realized when this was done as an English activity in their classes. Students today need to 'think out of the box'. Also, to 'kill two birds at a time', that is, to communicate clearly and also form a good impression of English speaking skills we tend to use them very often.

The collage displays various student projects on the topic of idioms. It includes:

- Worksheets:** A worksheet titled "STORY" with a story about a dog named "Dogs" and a section for "IDIOMS" with definitions and examples. Another worksheet titled "EYE FOR AN EYE" provides definitions and examples for this idiom.
- Posters:** A poster titled "IDIOMS" with a cartoon character and the text "DON'T GET YOUR TONGUE?". Another poster titled "IDIOMS" features a drawing of a person and the text "DON'T GET YOUR TONGUE?". A third poster titled "IDIOMS" features a drawing of a person and the text "DON'T GET YOUR TONGUE?".
- Handwritten Notes:** A page titled "IDIOMS USED IN THE STORY" listing idioms like "AT THE DROP OF A HAT", "BY LEAPS AND BOUNDS", "COPYCAT", "DOG EAT DOG", and "DRIVE A HARD BARGAIN".
- Thank You Note:** A colorful "Thank You" note by "Mishal Dhillon".
- Student Photos:** Photos of students holding up their completed projects, including a girl holding a poster and a boy holding a poster.

Phrasal verbs

A phrasal verb is the combination of two or three words from different grammatical categories – a verb and a particle, such as an adverb or a preposition – to form a single semantic unit on a lexical or syntactic level.

Phrasal verbs are differentiated from other classifications of multi-word verbs and free combinations by criteria based on idiomaticity, replacement by a single-word verb, wh-question formation and particle movement.

Words From Counsellor: HELPING HEARTS♥

LISTENING IS OFTEN THE ONLY THING NEEDED TO HELP SOMEONE!!!

Worried about a friend? Feel like you don't fit in?

Sometimes it's just not possible to sort through tough times alone. Problems can build up and you may lose sleep, find you can't concentrate on homework, or even become depressed. When you need to talk to someone, your school counsellor (sometimes called a guidance counsellor) can be a great place to start.

Counsellors Help You Cope

School counsellors know how to listen and help. They'll take your problem seriously and work with you to find a good solution. School counsellors are trained to help with everything — and it doesn't have to be just school stuff. A counsellor can help you deal with the sadness when someone has died as well as advise you on taking the right classes to get into your dream college.

It takes a lot of training to be a school counsellor. Most of them not only have college degrees but also master's degrees, as well as special training and certification in counselling. One of the many good things about school counsellors is that they are up-to-date on all the top things that affect students, including any trends that might affect your school.

School counsellors can give you all sorts of tips and support on solving problems and making good decisions. Chances are that whatever problem you have, your counsellor has seen it before — and has lots of good advice on how to help you work through it. Counsellors can give you tips on standing up for yourself if you're being bullied, managing stress, talking to your parents, and dealing with anger and other difficult moods. Counsellors also can advise you on problems you may have with a teacher, such as communication difficulties or questions over grades. School counsellors are plugged in to the rest of the school community and, in many cases, the outside community as well. So, they can refer students to outside resources like substance abuse treatment centres, professional therapists, and even health clinics.

It can help to know the different types of support your counsellor offers — even if you don't think you need it now. No matter what your problem, try to think of the counsellor as someone who's on your side. School counsellors are all about helping to make your school experience the best it can be. The role of the school counsellor today is very different from what it was like when your parents were in school. Instead of just focusing on schoolwork and careers, today's counsellors are there for students in a broader way. They help students handle almost any problem that might get in the way of learning, guide students to productive futures, and try to create a positive environment for everyone at school. So if you need a counsellor's advice, just go for it.

Teacher guide- Miss. Simranjeet Kaur

Students of class 8 performed an activity in which they wrote the recipe of their favourite dish like the mouth watering Les Crêpes or what we Indians relish as pav bhaji. Also they wrote about the method of preparation and ingredients in French. They performed the activity with great enthusiasm. They really enjoyed a lot and also learnt so many new vocabulary words.

“Success is not final; failure is not fatal: it is the courage to continue that counts.”

The yardstick for measuring success is not constant. But what needs to be essentially constant for achieving success are strategic planning for achieving success, continuously pushing yourself to work hard, perseverance and willpower. You cannot be successful in a split of a moment. It is a continuous and comprehensive process which must go on throughout our lifetime.

Don't just have career or academic goals. Set goals to give you a balanced, successful life. Balanced means ensuring your health, relationships, mental peace are in good order. There is no fun in driving a car if your back hurts. Shopping is not enjoyable if your mind is full of tensions. Life is not meant to be taken as a grave issue, as we are really temporary here. We are like a prepaid card with a limited validity.

It is said that, “Never let success get to your head; never let failure get to your heart.” This is one of the most important mantras for a successful life. Failure is a part of success and not the opposite of success and the day one understands and accepts this, his or her life will not only become easier but also peaceful. Success basically is the ability to go from one failure to another with no loss of enthusiasm. Don't be serious, enjoy Life as it comes. Do share it with all the good people in your Life. As Truman Capote said,

“Failure is the condiment that gives success its flavour.”
