

Sub: Inviting nominations for PTA Body

Dear Parent

With a view to better the understanding and having a healthy relationship for the 'Growth' of the Students, School and the Community, it becomes very essential to have a 'Body' composed of the Parents and their involvement in all such activities meeting the above objective.

The school wishes to have the esteemed participation from the side of the parents who would give a valuable participation and guide the school to rise to greater heights and in evolving a conducive atmosphere for children to attain their optimum potential with this joint association.

No doubt in the past you had all given your unstinted support in one form or the other, now we desire to formalize the same.

The parents who would like to be part of this association are requested to forward their profile giving a brief about themselves and also their value addition and contribution to the school by way of such participation.

You may kindly forward the above details in the Google form given below latest by 24th March 2026. Looking forward for your cooperation.
