MESSAGE FROM PRINCIPAL'S DESK

Important
Message

Mr. Ved Tondon
Chairman

As the Principal of the school, I feel honoured and privileged to be part of an educational institution where every stakeholder is a learner and every day is an opportunity to learn and discover. We look at ourselves as a community of learners, where everyone learns including our teachers, parents & staff . Education is a tool which stimulates everyone to go ahead and succeed in life as well as provides ability to overcome challenges in life . Quality and importance of education is increasing day by day . We aim in four fold development in our students ---mental , physical, social and spiritual . Education is not the learning of facts , but the training of the mind to think . Let us work together to help our students to grow upon the fear of the lord to be successful in life.

Education is not mere accumulation of facts; it is preparation of life itself. Education is knowledge imbued with wisdom and ethics. It develops the personality of the students, moulds their character and develops mental skills to help them cope with problems and challenges of the complex world of today. One of the most significant character traits that need to be instilled in our youth during their education is a finely ingrained attitude of service- before-self. The aim is to make them successful not only in life, but also conscious of their duties and responsibilities towards their fellow citizens.

MESSAGE FROM ACADEMIC DIRECTOR'S DESK

MESSAGE

Greetings to all our Readers,

“School is a place where pebbles are polished and diamonds are dimmed.”

Children have astonishing creativity. It is axiomatic that all children are creative and everything they make is creative. An adult's role is to support, admire and let the child's creativity unfold.

As you leaf through the pages of the newsletter, you will perceive the kaleidoscopic presentation of the various activities being taken up in our online classes, the participation of students in various co-curricular activities and competitions, accolades bestowed on them and the sight of many much-deserved feathers being added to their caps.

I would also like to appreciate my worthy teachers who have proved as catalysts in mobilising the students not only to participate in various activities but also contribute in designing the pages of this newsletter even during this pandemic.

Dear Teachers, Parents and Students

This is a privilege to be a part of such an amazing foundation of KMS, filled with such amazing people. “Everyone can rise above their circumstances and achieve success if they are dedicated to and passionate about what they do”. I want you all to know how much I enjoyed working with you on all of these projects and how proud I am to have been a part in being able to manage in this pandemic. It warms my heart to know that what we have done over the past two months which has gone all over the globe and hopefully brings many blessings to all staff members of KMS team and students. And also I would like to congratulate the parents who showed their great support and help the teachers in every possible way to make this online process of teaching a successful one.

It was a great season today for parents teacher meeting but less number of parents has joined, most of parent should join the meeting, Teachers are encouraged to students to help their parents for physical home work. Parents should keep eye to their kids when they are using any electronic products, parents should openly discuss about their childhood story to their kids. As usually Ranjitha ma'am is always there to help students and parents for any type of issue and she confirmed the same on meeting. Thanks(Sneha's Father).

CORONA WARRIORS

Science is valued by society because the application of scientific knowledge helps to satisfy many basic human needs and improve living standards. Corona virus pandemic resulted in the closure of schools across the country. Engaging young students in Science activities with exciting material and experiences motivated them to develop the thought process and self confidence through scientific temperament. Competency-based learning allowed a student to create a scientific vision towards their surrounding and apply their grasped knowledge in their day to day life.

E - PRESENTATION

The students of KMS participated in the Inter – School competition. E – Presenter hosted by Indraprastha School in which they showed their efforts by making a PPT on World With a New Beginning.

The students of KMS participated in the Inter - School competition hosted by Cambridge School in which they put forward to present themselves in a new way. They showed their efforts by making a PPT.

Success comes to those who work hard and stays with those, who don't rest on laurels of the past".

We live today in a world that is so very different from the one we grew up in, the one we were educated in. The world today is changing at such an accelerated rate and we as educators need to pause and reflect on this entire system of education.

We at Kamal Model School work at implementing a well-balanced curriculum to ensure that the children who walk into the portals of our school will not just love their school years but truly be prepared to face life's challenges. "TO MOTIVATE THE WEAK, TO ADDRESS THE AVERAGE AND CHALLENGE THE GIFTED" is the teaching vision of our school.

Aristotle once said that, "Educating the mind without educating the heart is no education at all." Even as we impart education to match the advancement in technology and globalization, we march our children ahead with KMS/KKG' ethos of moral values and principles. We endeavor constantly to instill these qualities in our children. We pride ourselves to help them grow and develop into sensitive and responsible citizens of the next generation.

A committed and supportive management, dedicated teachers, caring and co-operative parents blend harmoniously to create a child-centric school. Teamwork is the hallmark of KMS/KKG. I am very sure through collaborative effort we can achieve more to benefit our students who are the future leaders of tomorrow.

Coordinator Class V (Mrs Megha Bhalla)

It is such an honor to be a teacher to serve such an amazing group of kids, parents, faculty, staff and the community. I take personal pride in continuing KMS record of excellence that has existed for decades. I am hopeful that we will be back in the classrooms with our kids and continue to make our students better than they already are.

**Coordinator Class IV
(Mrs. Poonam Malhotra)**

COORDINATOR'S MESSAGE

I would surely like to thank all my colleagues for doing such hard work to help students gain knowledge even during these tough times of pandemic. The parents who show their full support to school and coordinate with them are also thanked and last but not the least the students who are giving their best to gain and learn new things are also appreciated. These tough times have taught us to unite and do whatever is possible for we know that a path without obstacles leads nowhere.

Coordinator (Mrs. Meeta Chandok)

During this pandemic as schools close and more people stay at home, online learning seems to be growing exponentially. The crisis has altered the teaching calendar in assignments. Alternative have had to be dressed to accommodate points/percents for missed assignments that would take place during shut down! This is challenging time and the need for flexibility and creativity will and are key to successfully get through the crisis. Definitely it's a team work. Without cooperation we can't overcome this pandemic. As none of us was prepared for this medical emergency we have to be patient and cooperative.

Coordinator (Mrs. Sudarshana Bhardwaj)

COMPILER'S TEAM

Dear students keeping in mind your health and well – being. May all of you have a safe time and be at your creative best while spending days away from school. I just want to say a huge thank you for your support and hard work over the past months.

This has been such as an unprecedented time while we would never have to go through this again, I wish you all a lovely time and look forward to see you all when we get back to school.

Mrs. Deepshikha Sharma

Unfortunately the Covid-19 pandemic has created just such an unforgettable experience. But the memories of yours smiles, stories and antics bring me joy in rough times. I hope you are all safe and healthy. I miss each and everyone of the kids and hope we will be together again soon.

Mrs. Diksha Satija

“Focus on Journey, Not the Destination. Joy is found not in finishing an activity, but in doing it.”

I want our students to know that even though we are not together but you are still much loved. Everything I do for you, is just for you.

Mrs. Mamta Singh
