Message From The Principal's Desk

"In the future, how we educate our children may prove to be much more important than how much we educate them"

Dear parents, children and well-wishers,

Greetings to you all from K.M.S World

Our aim of education is primarily to inculcate the quality of inquisitiveness which encourages the children to break the mundane and bring the best out of them, thus making them ready to face the challenges of the world.

We, at Kamal Model Sr. Sec. School follow the principle "Explore, Exercise and Achieve". Therefore, we provide a platform to every child for experiential learning, group exploration and building projects with the use of available resources to achieve their individual goals.

We are about to reach the end of session with the pre-board examinations scheduled this month. I hope that all my students have been consistently learning, pushing their boundaries and challenging themselves beyond their comfort-zone during this session.

As a school, we constantly motivate our students to challenge their own-selves and push their boundaries. We are elated that many of our students have excelled in their areas of interest this month and made us proud.

Wish You a Happy and Prosperous New Year 2021

-Mrs. Vandana Tandon

Principal

KAMAL MODEL SR. SEC. SCHOOL

Message From The Chairman's Desk

*"There are two gifts we should give our children, one is
Roots and the other is Wings."*

Dear parents, children and well-wishers,

I would like to welcome you to our K.M.S World. We are living in a fast changing world. The pace of change is indeed so fast that almost everything seems to be in transformation mode. Always remember that nothing stays forever neither success nor failure. The only thing that is constant in life is change. We have to accept the change and challenges of life and be mentally focused, strong and determined.

Education all over the world is undergoing a radical shift. Knowledge is no longer constrained by time and space. It has expanded beyond the classrooms and school campuses. Hence, continuous monitoring and evaluation of the learning environment needs to be done to provide required intellectual stimulation to the young minds.

As a premier educational institution, we are known for creating our own benchmarks and elevating ourselves to higher planes. This practice has made our group schools, the centers of excellence. However, learning, evolving and effort will never cease.

Wish You a Happy and Prosperous New Year 2021

Mr. V.P. Tandon

MAKE YOUR BODY FIT

TO MAKE YOUR MIND HIT

FIT INDIA MOVEMENT

FIT INDIA MOVEMENT

Kamal Model Sr.Sec. School organised virtual Fit India movement week with great glory and grand celebrations online. The first day of this week celebration had various health packed events to enjoy and gain knowledge. Day 1 started with virtual assembly and prayers with peace and harmony. Morning exercises and free hand exercises were done by children in order to give the message of fitness. Various other activities were also presented by students such as aerobics, dance performances , rope skipping, hopscotch etc. It was all fun and enjoyable. Dance performances were really energetic. The flies and jumps of aerobics made everyone amused and students got praised for their fitness. Students were truly supportive to the fit India movement campaign and they were trying their best to explain the concept of fitness to everyone.. At last first day ended up with a new start of a healthy week and happiness. Day 2 started with virtual morning assembly and a new vibe of fitness in the air. It started with common yoga protocols and asanas. Yoga demonstrations were given by teachers online along with full explanation of their benefits physically, mentally and socially. Online debates and symposiums were organized among children to explain the importance of exercises and fitness. Health related problems were discussed by the lecturers who provided students and teachers valuable knowledge of physical education. Brief explanation of different exercises and organ systems were given to express the benefits of good health among everyone. Open letter to the youth of nation was given by Mrs. Pramila Mishra mam on the power of fitness. Beautiful role plays were enacted by children on the topic "Exercise is a celebration of what your body can do, not a punishment for what you ate". The message conveyed by small children touched hearts of everyone and motivated themselves to get healthy and fit. Powerful debates discussed about the life before and after lockdown and health related issues to people. The message of being fit and healthy was flowing in the air. Day 2 ended up with new experiences and powerful performances with an excitement for the next day events.

FIT INDIA MOVEMENT

“ Health and Fitness are totally a choice for a better quality of life “.

Day 1 and day 2 events went well and amazing performances were performed by children. Moving towards day 3 and day 4. Children showed their art , intelligence and creativity in favour of Fit India Movement . Event started with the motto “Hum Fit toh India Fit”. On day 3, Advertisements were made by children to show the connection between mental and physical health. Children did exercises and workouts to show the balance between regular life and a healthy life. Importance of healthy diet was explained and the children told about various disabilities and disorders which a person can have due to unhealthy lifestyle. Importance of fitness was taken as the chief objective to explain. Mind games were played by children to show their healthy minds. Poster making was also organised for children to show their creativity and art. Beautiful posters were made by children. All the students who won the events were given prizes and positions .The day 3 events explained how physical, mental and other factors affect the health and fitness of human body. The day 3 events ended with the motto "Get Fit, don't Quit".

FIT INDIA MOVEMENT

"HUM FIT TOH INDIA HIT"

FIT INDIA MOVEMENT

"Get Fit, Don't Quit".

On day 4 various events were organised. Online debates between children were organized to express their views on health and fitness. Symposiums were organised to understand the need of a healthy and fit lifestyle. Dr. Rucha was the lecturer who provided lectures on healthy lifestyles and importance of exercises to children. The lectures were interesting and knowledgeable. Students came to know more about body systems and it's functioning. Poems and essays were written by children on how the global pandemic affected people's lives and their fitness. Unhealthy diets not only harmed people's physical fitness but also made them obese. Podcasts and short films were made by children on the theme "Get fit, don't quit". Children acted various roles and expressed their views on healthy lifestyle and it's importance. Various ways to stay fit were also told for those who do not get time to do regular exercises. Children showed their full energy and incompatible performances. At last Day 4 events ended with online prize distribution.

India**

From passive screen time to Active field time"

With above aim and objective to develop sports quotient among all students to achieve a healthy life, our Kamal Model Sr Sec school celebrated "Fit India school week" in the month of December 2020 from 1st December to 6th December. On 29th August 2019 the Honourable Prime Minister of India launched nation wide "Fit India Movement" Which was aimed to encourage people to include physical activities and sports in their every day routine. Such movements help in enhancing self esteem and confidence in students. Our students participated in many activities like aerobics, dance forms, rope skipping, yoga, brain games, essay/poem writing, movie/ advertisement making etc and won e-certificates.

FIT INDIA MOVEMENT

Exercise not only changes your body, it changes your mind, your attitude and your mode.

Day 1-4 events went well and amazing. Children made this event more enthusiastic and energetic. Day 5 had online Quiz with students and teachers. Exercise videos were made by children. Children performed squats, spot jogging, rope skipping, dribbling etc. in videos. Children also tried to explain the importance of fitness and it's connection with healthy and fit life. They explained if a person wants to be healthy then they must do exercises, eat healthy food and stay active. Various children made various videos and did various exercises with full energy and determination. Teachers praised children and their work in support of Fit India Movement. Motivational speaker Asha Aggarwal also had online meeting session with teachers, parents and students. Students asked questions and came to know more about Fit India Movement and benefits of fitness. Everything went well and day 5 events ended up with joy and knowledge.

जब स्वस्थ रहेगा

तभी तो आगे बढ़ेगा
इंडिया।

FIT INDIA MOVEMENT

“Fitness ki Dose, Aadha Ghanta Roz”

Day 6 was dedicated to family fitness and health benefits. Children along with their families participated in fit India movement campaign by staying at home. Students and their parents performed various health related activities to maintain the fitness. Teachers interacted with them and asked what they do for physical fitness to stay healthy. A unique event was also organised to make sports and health equipments. Hacky sack at home were used by families for warm-up activities and jogging, mosquito rackets were used to play tennis and badminton, fitness circuits were designed for daily fitness exercises and activities. Fresh time tables were set up and designed to stay fit and support the Fit India Movement campaign by staying at home. Finally day 6 and the fitness week ended up with a lot of knowledge, fitness, active minds and talented performances.

Jo Fit Hai - Wo Hit Hai

INVESTITURE CEREMONY

Even the challenging times of a global pandemic, when we all are separated from one another, could not stop Kamal Model Sr. Sec. School from celebrating the ideals of leadership, compassion and success. On 4th Dec with the blessings and support of our respected Chairman Shri Ved Tandon, Principal Mrs. Vandana Tandon, our virtual Investiture Ceremony was organized with the same zeal and enthusiasm like every year.

The ceremony began with the introduction of the Houses. The Houses embrace the values of the great leaders that shaped our great nation- the Gandhi House, Subhash House, Vivekananda House and Nehru House.

Then the ceremony continued with the presentation of role and responsibilities of various Clubs constituted in the school by the Club In-charges. The Clubs included were the English talkies club, the Srijan club, the Page Turner club, the Prudential club, the Figuriesta club, the Enigma Fortnite club, the Green Panther club, the Navlokam club for Sanskrit and last but not the least the 360 Degree Creativity club.

Finally, the ceremony moved forward with the commencement of the office bearers. The Head Boy, the Head Girl, the Vice Head boy, the Vice Head Girl, the Sports Captain and the Vice Sports Captain took their oaths and pledged to fulfil their duties to the best of their abilities.

National Pollution Control Day

National Pollution Control Day is observed on 2nd December to instil awareness among people about environmental pollution and its disastrous consequences. The National Pollution Control Day is observed every year on this day in remembrance of those who lost their lives in the Bhopal Gas Tragedy when the deadly gas methyl isocyanate leaked out of the Union Carbide plant on the intervening night of December 2-3 in 1984. The key objectives were to educate people about the importance of pollution control acts and making them aware about industrial disasters. The day aims to bring awareness to people about prevention of air, soil, noise, and water pollution. The students prepared posters and wrote essays to highlight the day.

NATIONAL POLLUTION CONTROL DAY

Search For An Solution To Put An End To The Pollution

MADE BY ABHISHEK KR-12-A

National Pollution Control Day

NATIONAL POLLUTION CONTROL DAY

Twentieth century has witnessed gigantic revolution in the field of science and Technology. It has enabled man to harness the forces of nature, conquer distances and bring out a revolution in every aspect of life. Scientific knowledge and Technical Innovations has vastly helped humans in improving their lifestyle and removing diseases and ignorance. But they have not helped human beings in creating a environment which is healthy and favourable to life's full growth. Man has sadly created an imbalance between himself and nature. Today man stands on the brink of annihilation as a result of Environmental pollution.

To pollute literally means to defile or

Stop Polluting, Start Planting.

National Pollution Control Day

make dirty. The addition of harmful and undesirable elements in the nature causes an imbalance and hence polluting the precious resources of mankind, i.e. air, water, land, and many others. This imbalance has not only deteriorating the quality of our life but also threatened the very survival of all life. Due to our very sorry the ever and rapidly increasing pollution is grabbing India more firmly than ever before. The air quality level is becoming worse day by day. Ground water level is decreasing rapidly with compliment of as much water is getting polluted, and is becoming unhealthy for any kind of useful purpose. River Yamuna is a live example of this menace. Because of this India ranks a low rank of 125 out of 132 countries in environmental performance Index 2012.

Hence to overcome from this man made evil and improve India's ranking in EPI, the government of India has began a new

National Pollution Control Day

Initiative, known as "National Pollution Control Day" which is observed on 2nd of December every year. It is also observed to remember those innocent lives which lost their existence due to the Bhopal Gas Tragedy on 2nd and 3rd of December. In this disaster more than 5000 people were dead and many were affected severely.

So National Pollution Control Day is used to make people aware and get all the knowledge and saving people from dangerous effects of pollution. It is not a easy way to maintain the level of pollution, but one can control it through plenty of good ideas and creative plans. People are inquisitive to reduce pollution but it is not easy to reduce it through small steps as now it has penetrated its roots more firmly than ever. Pollution can be treated by many control measures and using the most effective way of The Three R's i.e. Reduce, Reuse and Recycle. Pollution can be reduced by treatment and management of solid waste, which is scientific. It can be reduced by decreasing

NATIONAL POLLUTION CONTROL DAY

the waste generation. Industries have a main role in polluting the environment. They release various toxic gases in the atmosphere which is making it unfit for human survival. These are causing water pollution by adding up biochemical waste in water bodies. These factories are also responsible for causing land as well as soil pollution. To control all these actions of industries, the foundation of organizations like NPIB and CIPB have been established. These organizations ensure that the harmful and toxic waste that these factories produce should first be treated and made non-toxic waste in nature so it doesn't harm the environment severely. Not only factories but we are all equally responsible in polluting our mother earth. We are using and over-exploiting natural resources in such a manner that it is polluting the environment. There are uncountable ways in which humans are increasing this menace. So, National Pollution Control Day is used to give every person a safe and clean

National Pollution Control Day

environment through any type of ideas and plans to be implemented by the government for the welfare of society and should be followed by the citizens sincerely. and need to cultivate a better attitude towards reducing the pollution, from the environment through various ways.

It is very important to focus on decreasing the pollution for making a better India which is pollution free and this task is complimented by the initiative of National pollution control day. Everyone had to come ahead to reduce pollution through many pollution free activities and following the concept of this great step. so, it is the need of the hour that every day should be treated as pollution control day and let follow the path of "polluting less and planting more".

National Pollution Control Day

THE STREAM WHERE I PLAYED

I played in this stream as a child,
When the ravine seemed so endless and wild.
The water was clear and smelled so clean,
It was so long ago that it seems like a dream.

Now this stream is too dirty for my child.
The water is scummy and smells vile.
The place where I played seems so foul
and decayed,
And I shed the first tear as the dream
starts to fade.

MADE BY :- HIMANSHI GUPTA 12th E

Look outside, see the trees.
watch the flowers in the breeze
Things won't be like this in a year or
If polluting is all we do.
Seize the night,
seize the day.
Things won't always be this way
Thousands of people dying.
In the night, you hear children crying
let's stop the war
our people are soze
The world can't help itself
who cares about your wealth?
Help me to help you
show the world what you can do.

INTERNATIONAL DAY OF PERSONS WITH DISABILITIES

Disability is part of the human experience. 3rd December is observed as International Day of Persons with Disabilities (IDPD). On this Day WHO joins partners to celebrate "a day for all". This theme reflects a growing understanding that disability is part of the human condition. Almost everyone will be temporarily or permanently impaired at some point in life. Despite this, few countries have adequate mechanisms in place to respond fully to the needs of people with disabilities.

International
Day of
Persons with
Disabilities

INTERNATIONAL DAY OF PERSONS WITH DISABILITIES

हर वर्ष 3 दिसंबर दिव्यांक (विकलांग) दिवस के रूप में मनाया जाता है। विद्यार्थियों में दिव्यांकों के प्रति संवेदना और उनकी समस्याओं को बताने के उद्देश्य से हमने विद्यालय में कुछ गतिविधियां आयोजित करवाई जिसमें बाबुल कक्षा बारहवीं के छात्र ने एक वीडियो तैयार किया। उसमें लोगों को जागरूक करने का संदेश था। दिव्यांकों के जीवन के तौर-तरीकों को और उन्हें बेहतर बनाने के लिए तथा समाज में उनकी बराबरी के विकास के लिए विकलांग व्यक्तियों के अधिकारों के बारे में लोगों को जागरूक करने तथा उन्हें उचित सम्मान दिलाने के लिए हिमानी शुक्ला ने अपने भाव व्यक्त किए। अरुणिमा सिन्हा जो वॉलीबॉल खिलाड़ी तथा माउंट एवरेस्ट फतह करने वाली पहली भारतीय दिव्यांका थी तथा सुधा चंद्रन को एक नृत्यांगना के रूप में जाना जाता है इन सब के विषय में भी छात्रों को परिचित करवाया।

कभी गिरोगे तो खुद उठ भी जाओगे,
कभी लड़खड़ाओगे तो खुद ही संभल भी जाओगे।
जब तुम थामोगे हौसलों का दामन तो,
एक दिन शिखर पर तुम भी चढ़ जाओगे।
लाखों विकलांगों के हौसलों पर तुम अपना परचम
लहराओगे।।

INTERNATIONAL DAY OF PERSONS WITH DISABILITIES

"Just because a man lacks the use of his eyes doesn't mean he lacks vision".

The annual observance of the International Day of Disabled Person was proclaimed in 1992 by the United Nations. The observance of the day aims to promote an understanding of disability issues and mobilize support for dignity, rights and well-being of persons with disabilities. It also seeks to increase awareness of gains to be derived from the integrates of persons with disabilities in every aspect of political, social, economic and cultural life. With this motto our students of classes 9th and 10th observed this day and pledge to give motivation to them. When everyone else says You can't Determination says 'Yes, You Can'

UNICEF DAY 2020

UNICEF Day is celebrated as Universal Children's Day. It is observed on 11 December every year since the UN General Assembly created UNICEF on the same day back in 1946. It supports immunization programs for childhood diseases and provides funding for health services, educational facilities and other welfare services. UNICEF Day 2020's theme is to focus on addressing the needs of children facing adversities due to the COVID pandemic. The students of Kamal Model school celebrated UNICEF DAY by making posters, writing poems and wishes.

UNICEF Day is observed every year on 11th December. The organization works in 190 countries and territories aiming to save children's lives, to defend their rights and to help them to fulfil their potential from early childhood through adolescence. This programme is initiated to provide supplies assistance and to improve the health, nutrition, education and general welfare of children.

"If you can't feed a hundred people, then feed just one".

World AIDS Day It is bad enough that people are dying because of AIDS but no one should die because of ignorance. World AIDS day is celebrated on 1st December every year since 1988, for raising awareness about AIDS caused by the spread of HIV infection and mourning those who have died because of the disease. The HIV virus attacks the immune system of the patient reduces its resistance to other diseases. It is one of the eleven official global public health campaign marked by the WHO. Our students of classes 9th and 10th also observed this day with education on AIDS prevention and control. As someone rightly said, "The most important thing in illness is never to lose heart".

WORLD ENERGY CONSERVATION DAY

Every year, December 14 is celebrated as Energy Conservation Day to raise the awareness on importance of energy conservation for the present and future generations. The conservation of energy is an important step that is needed to be taken to ensure that the coming generation will live in a brighter tomorrow. Energy conservation emphasis on judicious use of energy to minimise wastage and to save resource for future. Energy conservation also advocates the importance of non-renewable resources. On this day, a large number of events such as discussion, conferences, debates, workshop, competitions etc. are held across the country. Students of Kamal Model School also participated in various activities like poster making, discussion, making videos etc.

ENERGY CONSERVATION

By :- Poornima

Class:- 11th B

Introduction

With the growth in the population , the requirement for energy is also increasing continuously. Thus , every year “ Energy Conservation Day “ is celebrated to raise awareness among the general public about the importance of energy conservation and energy efficiency. Energy Conservation Day is observed every year on **December 14**. The day focuses on making people aware of global warming and climate change and promotes efforts towards saving energy resources.

National Energy Conservation Day

14 December

History

In 1978, a government body called Petroleum Conservation Research Association (**PCRA**) was created which works to promote energy efficiency and conservation. The PCRA has carried out several campaigns through mass media like print, television, radio and digital means.

In 2001, the Bureau of Energy Efficiency, a constitutional body, was created to assist in developing strategies to regulate the framework of the Energy Conservation Act, **2001**. The primary objective of the organization is to reduce energy intensity of the Indian economy. It is responsible for promoting and advocating energy efficiency and conservation.

Reduce
Recycle
Reuse

Is this what
you want the
future to be?

Save Energy
Save Earth
Save Life

Help save
the environment

Save energy
Today
for a better
Tomorrow

Significance

Using energy in an efficient manner is necessary to save it for the future generations. The pace with which the non-replenishable sources of energy are depleting is a major cause of concern around the world.

Hence, National Energy Conservation Day is recognized to promote using the energy resources judiciously, preventing wastage of energy and increase energy efficiency.

Quotes

“ EVERY ACT OF ENERGY CONSERVATION... IS MORE THAN JUST COMMON SENSE: I TELL YOU IT IS AN ACT OF PATRIOTISM.”

- Jimmy Carter

“EARTH PROVIDES ENOUGH TO SATISFY EVERY MAN’S NEEDS, BUT NOT EVERY MAN’S GREED .”

- Mahatma Gandhi

World Energy Conservation Day

Energy Conservation Day' is celebrated to raise awareness among the general public about the importance of energy conservation and energy efficiency. Efforts are made to reduce the consumption of energy and to use less energy so that energy sources can be saved for future uses. Our students of classes 9th and 10th also took part in programme and promised to make energy conservation plans, strategies to reduce the use of energy. They took part in discussions, debates, workshops and competitions.

World Energy Conservation Day

GOA LIBERATION
DAY

HAPPY GOA LIBERATION DAY

DECEMBER 19

Goa's Liberation Day is celebrated on 19th December to mark the liberation of Goa from Portuguese control in 1961. After the refusal of Portuguese government to negotiate on sovereignty of Indian territories. Indian army invaded with operation Vijay. It took 36 hours. From then Goa along with Daman and Diu, was organised as a centrally administrated Union Territory of India and it became India's twenty fifth state. Students of classes 9th & 10th took part in role play and showed the important events from 15th century Goa to Operation Vijay.

HAPPY NATIONAL MATHEMATICS DAY

Every year, the county celebrates National Mathematics Day on December 22 to commemorate the birth anniversary of Mathematician Srinivasa Ramanujan. He made a significant contribution to mock theta function that generalises the form of the Jacobi theta functions, while preserving their general properties. He had mastered trigonometry and developed many theorems on his own with no assistance. Our students of classes 9th and 10th celebrated this day by taking part in quiz, puzzles and brain games.

HAPPY NATIONAL MATHEMATICS DAY

FOTOGRAFIA 2020

Photography is one of the most popular electives in school. I think a big reason for this is because students think it's so easy to take pictures. These days, students can snap selfies and photos anytime, with little planning or thought. However, when they try to translate their social media skills to photography class, many of them realise their skills aren't quite as sharp as they think.

It's important to show students taking a good photo involves more than a click of a button. In addition, we must help students discover a new way of looking and learn to see all of the details they've been missing. Starting off with projects to build these skills is crucial!

So, our student of class 11th participated in an event named "Fotografia" organised by Bosco Public School on 19th December.

ADITYA JHA of class 11th held First Position in the event by capturing nature beautifully.

BE ALERT AND ENSURE YOUR RIGHTS AS A CONSUMER

JAGO GRAHAK JAGO

CONSUMER'S RIGHTS DAY

The World Consumer's Rights Day is celebrated on March 15th. But the National Consumer's Rights Day in India is celebrated on December 24th. This day provides an opportunity to highlight the importance of the consumer movement and the need to make every consumer more aware of their rights and responsibilities. To spread this awareness our school has conducted an activity in which students made posters, wrote slogans, poems, etc. Also, a healthy discussion was held in classes among students on consumer's rights.

NATIONAL CONSUMER'S RIGHT DAY.

Today is a special day for all consumers. It is a day when we can voice our concerns and demands to the government and the public. It is a day when we can demand better quality and safety of the goods and services we buy.

Let the World be Heard

Let's take a pledge to protect our rights, whether your rights, Human Rights is for All

#SustainableConsumers

NATIONAL CONSUMER RIGHTS DAY

"Every business can do wonders, if they abide by the laws and of the consumers."

Every year 24th December is observed as National Consumer Day with a specific theme in India. This day provides an opportunity for individuals to highlight the importance of the consumer movement and the need to make every consumer more aware of their rights and responsibilities.

"If the market place are the nervous system then the consumer is the heart to it."

Indian Army Forces Flag Day

Indian Army Forces Flag Day is observed on 7th December. This day is dedicated to Indian Army towards the collection of funds from people of India for the welfare of the Indian Armed Forces Personnel. This day is dedicated to honour the soldiers, sailors and airmen of India who bravely and courageously battle on our borders to protect the country's people as well as the nation's pride. Our students of classes 9th and 10th also took the oath to save the country and reminded the duties towards the forces.

Indian Army Flagship Day

HUMAN RIGHTS DAY

**"No matter our job, no matter our height.
We all deserve to be treated right"**

Human Rights Day is observed every year on 10th December. UDHR is a milestone document that proclaims the inalienable rights which everyone is entitled to as a human being regardless of race, colour, religion, sex, language, political or other opinion, national or social origin, property, birth or other status. This year's theme relates to pandemic. Our students of classes 9th and 10th also celebrated this international day with slogans, posters and with aim to 'Recover Better'.

23 December National Farmers Day

"A farmer is a magician who produces money from mud"

In 2001, the government decided to recognise Choudhary Charan Singh's contribution in agriculture sector and welfare of farmers by celebrating his birth anniversary as Kisan Diwas. Since then, December 23 has been observed as National Farmer's day. General awareness and drives are organised across the country to educate the people about the role of farmers and their contribution in the economy of our country. Our students of classes 9th and 10th also reminded the contribution of farmers by planting saplings, writing slogans and making posters.

**"If agriculture goes wrong,
nothing else have a chance to go right in the
country. "**

We can see the interference of the north-eastern area in the arts & crafts of Sikkim. There are many forms of art & crafts created in this state. Most of the people of Sikkim live in rural areas where we can see the old tradition of making various utility items. We can witness a variety of the famous handicrafts of Sikkim are canvas wall hanging, shukasee table, woollen carpet and so on.

There is also an Institute named Institute of Cottage Industries for the development of cottage industries in the state and we can see several other handicrafts. They belong to different communities. The museum of the traditional state, especially where the museum, attracts a lot of tourists and there is a huge demand for handicrafts, paper and carpets of Sikkim all over the world.

Sikkim is famous for its homogenous blend and rich cultural heritage. It is the land of manifold tribes and races of people living together in which we can see their unique culture and tradition in each community.

People of Sikkim are very warm and friendly and live in peace and harmony even when they belong to different communities. They have very unique customs and traditions from any other place. The monks cover themselves with masks, sparkling jewels and ceremonial swords and perform the famous mask dance in the rhythm of trumpets and drums on special occasions and festivals.

TEACHERS' CORNER

Happy New Year!

Dear students,

We all come across difficult time in our lives and we all have different ways in dealing with them, the situation might be the same for all of us but reactions to those can never be the same. What might be challenging for me might be easy for you.

We know it is very easy to give lectures but very difficult to follow. But we know that you have an amazing potential. Many times in past, you worked hard and changed the course of time. Again time shows the same attitude towards life and things will change for sure. We don't want you to lose your heart and patience. We want you to stay focused and work with more force and then just wait for the results to arrive. We have the faith in you that you will do amazingly well. We wish you all for your exams and bright future!!!

Happy New Year!

Against the tumultuous times...

*In the fell clutch of circumstance, I have not winced nor cried aloud.
Under the bludgeonings of change, my head is bloody but unbowed.
Even the unfathomable and worrisome times of a global pandemic couldn't stop our remarkable teachers from providing every single student with quality and exceptional education. Being locked down in our homes did not stop them from giving us another year filled with knowledge and new experiences. They adapted to the technology swiftly and efficiently and thereby pushed us to our limits like they always do. As the infamous saying goes "When every door gets closed, god opens up another door for us." When the whole education system came to an abrupt halt, teachers started online classes. They took each and every possible step which they could to familiarise themselves to the technology. They work hard day and night, they make PDFs for students, they conduct online exams, all the special events online, etc. Events like investitures ceremony, prize distribution ceremonies, debate competitions, model UNs, annual functions etc. were organised in a wonderful way to do something new and give students a new experience. Students are fully enjoying studies nowadays and the new ways of studying are opening gates for new experiences. During this time students got a chance to showcase their talent and creativity. Now it's the time for them to do their absolute best and make our incredible teachers proud of the individuals they have shaped.*

Shivangi Pandey
(Head Girl)

Mukul Kaushik
(Head Boy)

I want to go to school, because along with studies, we would also have fun while playing with our friends. We get all kinds of playing equipment in one place.

- PAYAL .

I want the schools to re open. The online classes are just of 35 minutes, whereas school periods used to be of 50 minutes.. also due to poor connection sometimes I miss the classes. School should re open in 2021

- ADITYA KUMAR JHA.

The fun we had while studying inside our classes is incomparable to these online classes. I want to study offline in 2021, I am missing school.

- ASHUTOSH PATEL .

I want to study in school because I can directly ask doubts. I want to talk to my friends and have fun, which isn't possible in these online classes

- NISHI KATARIA .

I want to study in school because subjects like Math and Science are difficult to understand at home.

- DIKSHA

I want the schools to re open because I am missing the functions and events which were organised at school.

- AAKRITI

I want to go to school because I miss the fun we had on the way to our school. I miss the toffees and chocolates that I bought on the way to school.

- PALAK

I Always Miss My School Days

I want to study in school in the year 2021 because even with all the facilities the communication between teacher and student is still weak and my father is a teacher and I can understand that there is no other option for students better than school.

- KANISHKA

I want to go to school the next year because due to the excessive use of mobiles and computers my screen time has increased and it has affected my eyes. Along with that the network problem is also there in my area so I don't want to continue online classes and I want to go to school.

- HARSH

I want to go to school in 2021 because when I am studying through my online classes, my parents think that I am not studying instead they feel I am playing games. That's why I want to go to school.

- SAHARSH

I wish that the schools should only open on the weekends and for the rest of the days the same process of online classes should be followed so that we can complete our notebooks in time.

- MOIN

I don't want to go to school before the next session because my work is incomplete.it would be better if the exams are taken online but the schools should be opened because I want to play with my friends because I like playing with my friends. But it isn't my choice, you can't do anything.

- YASHVARDHAN

Offline studies is the best. I miss the fun we had in the free period and games period in school. I miss the fun we had with our friends in offline classes. Online studies don't allow us to have fun and I don't understand the lessons as well. I can't even ask my doubts freely from my teachers. So, offline studies should be encouraged.

- NAMYA

**"Santa Santa please stop here,
Fill our Christmas with joy and cheer"**

Christmas is celebrated to remember the birth of Jesus Christ who is the son of God, according to the Christian's belief. It is celebrated by the people all around the world. It's a time when family and friends come together and remember the good things they have. People, specially children like Christmas as it brings joy, happiness and gifts for them. Many people decorate their homes, visit family or friends to exchange gifts, some kind people arrange meals, gifts or charitable projects for homeless needy people.

**"Good times Good cheer
And a Happy New Year "**
