MEMORANDUM

Message from Principal's desk Ms. Vandana Tandon

I feel fortunate and happy to congratulate my team for bringing out the monthly newsletter. It serves as an opportunity to our little champs to exhibit their skills adorned by their mentors in front of everyone. Our school has rich legacy which can be easily witnessed by the success of alma maters. We, as an educator, undertake the challenging task of moulding the young minds into valuable gems of the society. A piece of advice to all my children is to develop an attitude of never giving up. Whatever the situation is, stay focused and stick to your inner abilities.

Message from Chairman Sir Dr. V.P. Tandon

Aristotle once said that, "Educating the mind without educating the heart is no education at all." We, at Kamal Model Senior Secondary School provide an ambience where every child expels out their layering of nescience and develop a covering full of knowledge, wisdom and bliss. For accomplishing any task, one should be fully devoted in terms of mind, soul and heart. This newsletter is the evidence that our school is achieving milestones in every field. I congratulate our staff and students for such a lively thoughtful work.

Academic Director

Ms. Pramila Mishra

The task of the excellent teacher is to stimulate 'apparently ordinary' people to unusual effort. The tough problem is not in identifying winners; it is in making winners out of ordinary people

Academic Coordinator

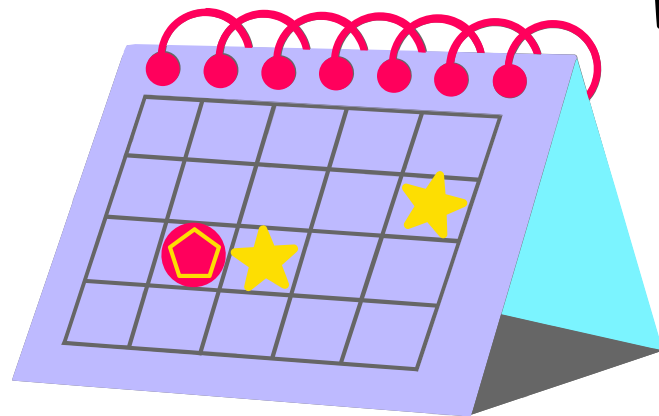

Ms. Pushpa Jindal

Education is not the learning of facts. Its rather the training of mind to think.

EVENTOPEDIA

TOONS OF GRATITUDE

CLASS 3RD

Teaching does not have to be boring! Injecting a little fun through activities can get your students engaged and learning. Teachers of class 3 incorporated the art of questioning in kids through the guess of object activity and also collaborated the art of card making with the concepts of grammar as kids were expected to identify and differentiate between nouns, verbs and adjectives at the same time.

Click here for More Pictures: https://youtu.be/73bY_2deApw

CONFIDENT ARTISTS

CLASS 4TH

Activities enrich the skills of listening and speaking. These activities give students an opportunity to organize their own thoughts and build confidence among them. Students of class IV learnt various topics shown through activities and this enhanced their skills and motivated them. Role play pedagogy was very effective in acquiring learning outcomes and reaching the three major learning domains i.e affective , cognitive and behavioural .

Click here for More Pictures: <https://youtu.be/MKDpqqoEBVsw>

SPEAKERS OF THE ERA

CLASS 5TH

Education without activities is like educating the mind without educating the soul. These activities not only give an equal footage to every child but also boost their confidence and spirit of independence. Students of class V performed many activities to show their skills. Through their activities students learnt how to organize their work in an orderly manner and how to present material in a good way.

MATHS WARRIOR

CLASS 3RD

When it comes to math, a good foundation is essential. With our fun math activities for kids, numbers become friends and the basic foundation for the subject is established at an early age. Different math activities for kids of different age groups can be effective in teaching them basic but essential math concepts. This activity is a great way to get children familiar with the basics of regrouping while calculating math problems. Not only does this activity give children practice at adding together large numbers, but it asks them to identify the difference between sums that have required regrouping and those that haven't. Students will solve the problems and cut out the cards. Students will then cut out and assemble the sorting envelopes.

DRAGON'S ARITHMETICS

CLASS 4TH

Teaching through the arts, can make difficult concepts easier as the concepts are presented visually. Activities help children with the development of motor skills, language skills, social skills, decision making, creative skills and problem solving skills. Activities also improve concentration, acquisition of real world experience and improve academic performance. The art integration provide an authentic learning experience. At a basic level geometry is important to learn because it creates a foundation for more advanced mathematical learning. Different art forms are made by joining different geometrical shapes together.

PUTTING MIND TO MATHS

CLASS 5TH

Learning Maths is important as it helps us in making day-to-day calculations easier and it's important to help young children develop their mathematical thinking. The best method to learn any subject is through activities and games because they make the entire learning process more enjoyable and create a lasting impact on child's cognitive, effective and psycho-motor domains. Students of Class V performed these activities with great enthusiasm and displayed their divergent thinking in learning new mathematical concepts.

ECO-LUTION

CLASS 3RD

Activity-based learning is the process of learning by doing. As opposed to asking kids to simply listen and take notes, activity-based learning encourages students to actively participate in their own learning experience through practical activities. Keeping all these things in mind, the students of class 3 were engaged in different classroom activities so that learning became fun for them. The students participated in activities like life cycle of butterfly and frog.

Life Cycle of a Frog: <https://www.youtube.com/watch?v=621wsPzZfKs>

Environment Day: <https://youtu.be/4sMtnhdgryc>

Life cycle of butterfly: <https://youtu.be/bU3eXm-cGgc>

EMERGENCE OF SPECIES

CLASS 4TH

Activity based learning and Experiential Pedagogy was used to achieve the learning Outcomes as students performed these activities:

- a) Role play of a butterfly to identify the different stages in life cycle of butterfly
- b) Role play of an egg and caterpillar to recognise the different stages in life cycle.
- c) Role play of an animal to explain various habitats.
- e) Making of shoe box aquarium to identify the types of plants and animals living in an aquarium.

An excellent result of activities was achieved as these techniques allowed students to acquire key knowledge and skills through the development of projects that respond to real life problems. It gave opportunity to develop the complex competencies such as critical thinking, communication and problem solving.

ELECTRO-GENIUS

CLASS 5TH

Project based and Experiential Pedagogy was used to achieve the learning outcomes as students performed the following activities:

- Role play of a scientist to discover the causes of soil erosion
- Role play of a farmer to explain the steps of cultivation.
- Role play of an animal to explain various habitats.
- Seed Germination activity to understand the basic needs of a seed to germinate.
- Interchanging states of matter- An activity to understand the features of Solids, Liquids and Gases.

An excellent result of activities was achieved as these techniques allowed students to acquire key knowledge and skills through the development of projects that respond to real life problems.

POLITICAL WORLD

CLASS 4TH

Students presented their creativity and learning of Western Desert by taking initiative in the activity and using different props. They exhibited their positive attitude towards the learning and explained the colourful culture and tradition of Rajasthan.

ELECTIONS AND VOTING SESSION

The students actively participated in selection of CLASS REPRESENTATIVE ACTIVITY by voting for the candidates online. All the students gave vote to the candidates in the online session and understood the importance of one vote. This activity enhanced their thinking and confidence.

EARTH'S SPHERE

CLASS 5TH

Students may struggle to grasp concepts that don't pertain to the "real world." As students interact with the information, it becomes real to them.

For giving real life experience and experiential learning the students were provided with the platform where they presented about their 'Favourite Season'. With the help of different TLM they were told about the two movements of earth. The students prepared different props and expressed their views related to the topic in the class.

The basic idea behind these activities was to give an opportunity to apply data and ideas in a real-world situation where they too play an active role.

CRAFTY KIDS

CLASS 3RD

Children observed the power of their creative imagination through Sketch Aquarium. They saw the aquarium coming live through the artistic stroke of their pencils. It offered opportunities to our little kids of class 3rd to colour Sea Creatures.

CLASS 4TH

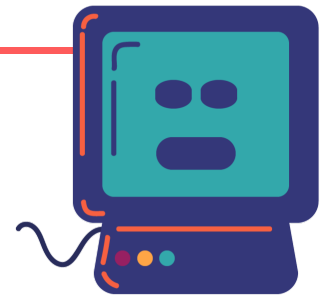

To express the nature love students sketched a composition based on the theme of Free Hand Drawing. They mastered the drawing of Caterpillar and facilitator guided them to express their emotions in the best possible way.

CLASS 5TH

The fantastic filled paper plate craft was a lovely fun activity to engage learners. This paper plate craft was easy to prepare with frugal material. This activity enhanced fine motor skills among the growing kids and hence was very beneficial.

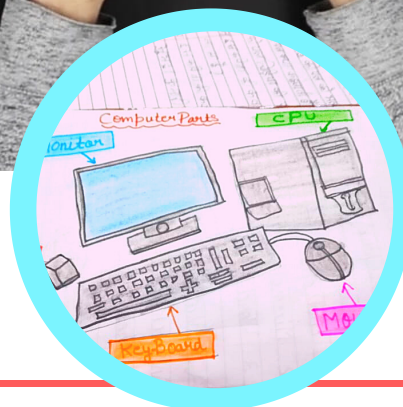

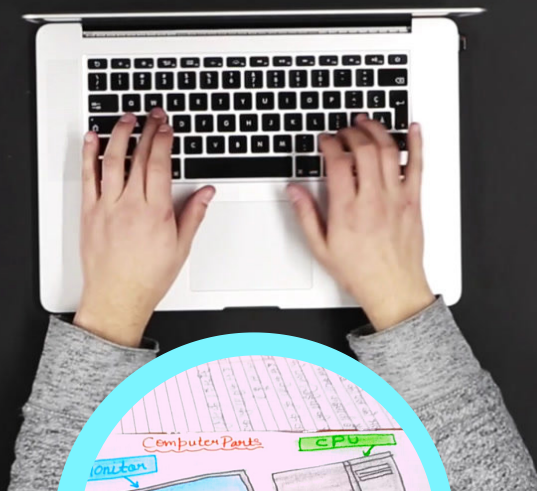

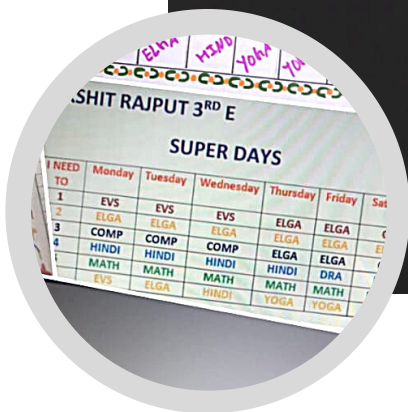

ELECTRO UNIVERSE

Students presented their creativity and learning of 'Use of Table Command' in Libre Office.

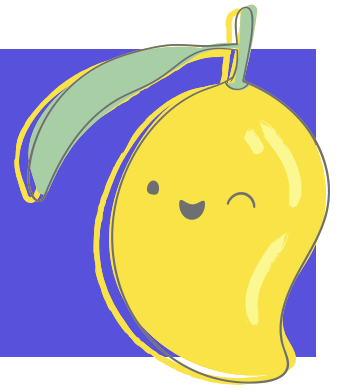

They exhibited their positive attitude towards learning and explained about 'Use of Table Command' through videos and presentations.

Through this activity students understood the different ways to Insert table in Libre Office.

MANGO DAY

The immense love for this fruit is so deep-rooted that we celebrate a special occasion every year to exhibit the different types of mangoes from all over the country. From the soothing fragrance to the unheard varieties of this fruit, students of grade 3rd, 4th & 5th added excitement to this festival by participating in various activities ranging from poem recitation to head crown making. Kids also decorated the platter using mango in an artistic style.

Click here for viewing MORE: <https://youtu.be/1cLUIguVrqg>

EMOJI DAY

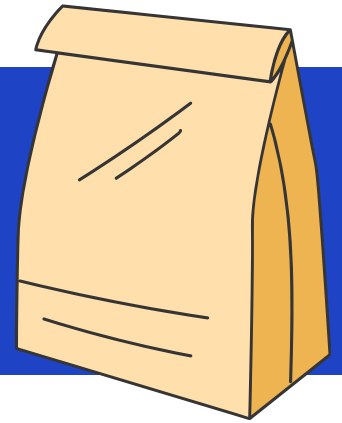

Emoji is the fastest growing language in history. It is a small digital icon that says everything, without words. World Emoji Day is a celebration of all emojis.

At KMS, students celebrated World Emoji Day and displayed their emotions by making their favourite emojis on various colourful marble sheets of paper. By doing this activity, their creativity and fine motor skills were enhanced.

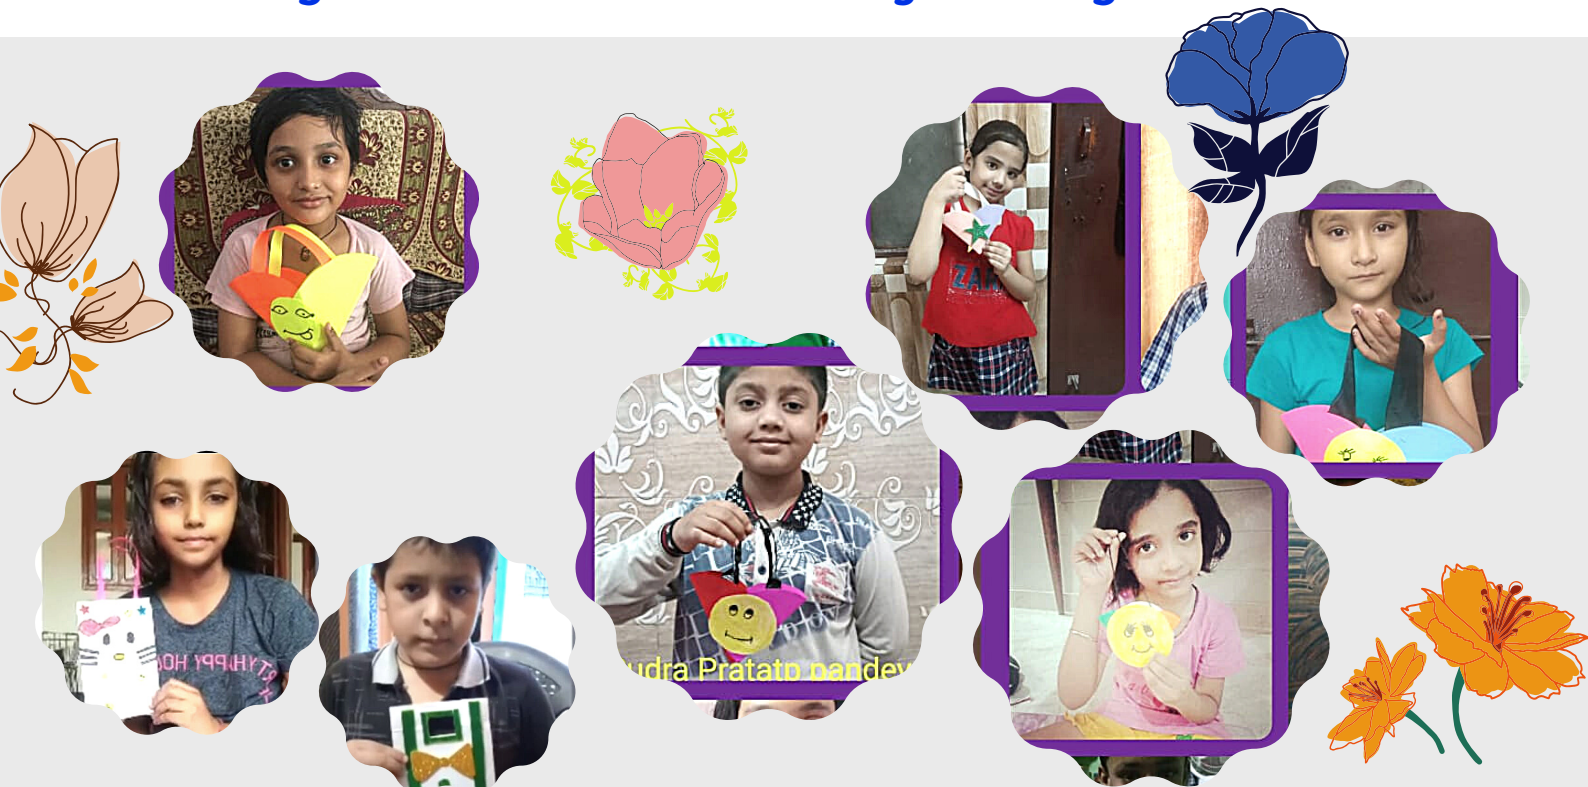

Click here for viewing MORE: <https://youtu.be/THxGCpMh1v8>

PAPER BAG DAY

This celebration aimed at spreading awareness among our little ones about the hazardous effects of using plastics. “Do a favour, choose paper,” it is utmost important to acknowledge the fact that we are the creators of our future generations. So, let’s give them the best one by developing some key habits of using paper bags instead of plastics. Our kids chose various kinds of papers for the activity. To add a little spice to this, our drawing teacher crafted a new style of bag for the kids.

PLASTIC MUKT BHAARAT

प्लास्टिक एक गैर-बायोडिग्रेडेबल पदार्थ है। यह मिट्टी या पानी में नहीं घुलता है और जलने पर इसका प्रभाव और भी बुरा होता है। ऐसे में इसे खत्म करना चुनौती है। यह सैकड़ों वर्षों तक पर्यावरण में रहता है और वायु, जल और भूमि प्रदूषण का कारण बनता है।

हमारे विद्यालय में तीसरी कक्षा के विद्यार्थियों ने बखूबी इसे दर्शाया। इसमें विद्यार्थियों ने सबको प्लास्टिक के दुष्प्रभाव से अवगत कराया। बच्चों का मुख्य उद्देश्य लोगों को प्लास्टिक का इस्तेमाल ना करने के लिए जागरूक करना था

प्लास्टिक हटाएं ज़िंदगी बचाएं

WORLD ENVIRONMENT DAY

World Environment Day (WED) is celebrated annually on 5th June and is the United Nations' principal vehicle for encouraging awareness and action for the protection of the environment. . A platform was provided to students to celebrate world environment day where they got sensitised towards the environment.

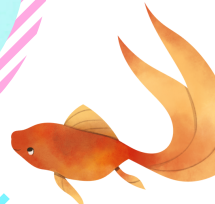

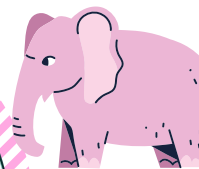

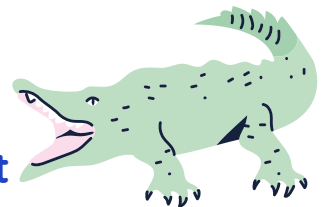

The main objectives of the activity were-

To compare Earth's situation in past and present

To examine how we are damaging the environment

To create poster for spreading awareness.

Students celebrated the environment day and enjoyed alot.

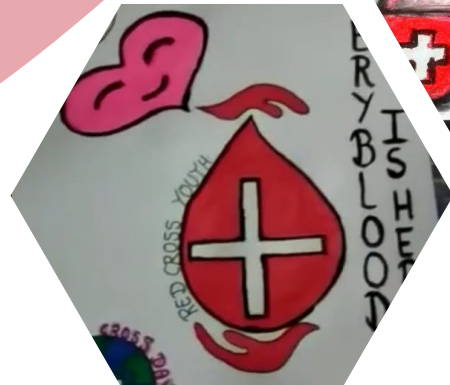

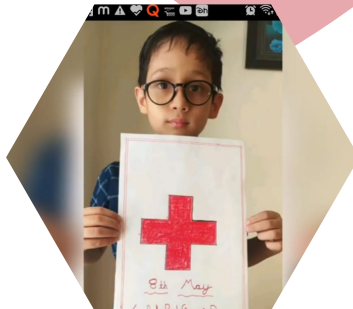

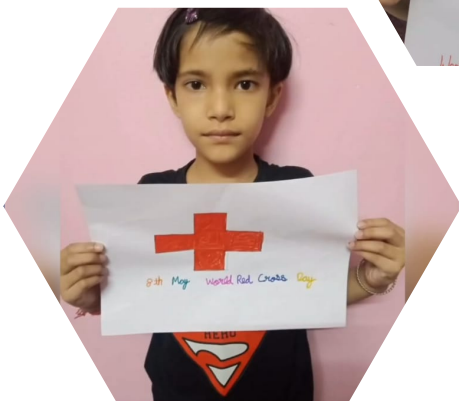

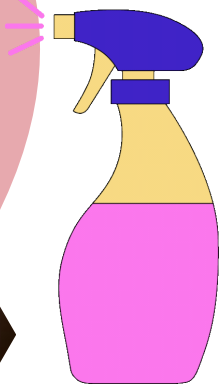

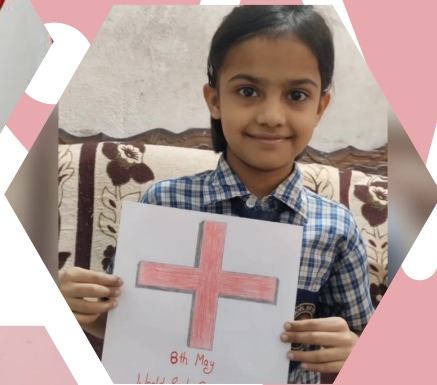

Click here for viewing MORE: <https://youtu.be/4sMtnhdgryc>

RED CROSS DAY

Every year 'World Red Cross Day' is celebrated on 8th May. The students were told about the importance of this day. They made beautiful posters on Red Cross Day and gave a strong message to always work for welfare of people even in this pandemic. They also paid tribute to the Covid Warriors.

Click here for viewing MORE: <https://youtu.be/2883HOZwPSw>

SPORTS DAY

Sports play a vital role in our lives. Whether young or old, everyone desires a good physique and sports act as a catalyst for this. Kids spoke their hearts out on the importance of sports and various sports personalities. There is a great importance of games and sports for the students. The Sports teach discipline to the students. They are very essential everyone.

Click here for viewing MORE: <https://youtu.be/TjJM85kCMcl>

TIGER DAY

International Tiger Day also known as World Tiger Day is observed every year on 29 July. The day is observed to spread awareness about dangers faced by tigers. It is very important to focus on tiger conservation as it plays a very important role in protecting and maintaining a balanced ecosystem across its range. 29th July is referred to as the Global Tiger Day. Also every year, the day is observed to mark the declining population of tigers across the globe. The decline happened in the 20th century and the number is luckily on rise again due to the continued efforts of the people. India prepares the tiger estimation report every four years and last report was released in 2018. Students of class 3rd celebrated International Tiger Day. This celebration aimed at spreading awareness among our little ones.

FRIENDSHIP DAY

Friendship is the most valuable thing in life and to mark the importance of this beautiful relationship, Friendship Day is celebrated on the first Sunday of the month of August.

People usually celebrate Friendship Day by tying a friendship band on each other's wrist. It is treated as a promise to be each other's best friends forever (BFFs). But as we all know that it's pandemic time where we can't meet our friends so students of class 3rd celebrated a virtual friendship day to greet their friends. Students made "HANDWHEEL" and "Frenzy Rainbow". The students participated in the activity actively shared their joy of togetherness in the virtual class.

friends

ENGAGEMENT PROGRAMMES

INTER SCHOOL COMPETITIONS

Grade 3rd Theme: Our Helpers (Date 26th June 2021)

Keep fighting! No matter how mighty your competitor is.

Competitions always help goal setting in exploring our self as an individual to recollect this belief. The kids understood the fact that success is achieved through actions not merely words when they participated in topknotch competitions.

INTRA CLASS COMPETITIONS

“If you become a helper of hearts, springs of wisdom will flow from your heart.” Being mindful of this, our little champs paid a tribute to all Helpers in society by experiencing their life through role play activity. The mode of the activity was Hindi to promote speaking skills and winners were presented with certificates.

Lightbulb Moment

“The true wealth of a nation consists not in the stored-up gold but in the intellectual and physical strength of its people .”

Nobody gets fame in a single day, it's our sheer hard work that makes us what we are today. So the little pioneers of KMS got inspired from the famous personalities like Shakuntala Devi , C .V. Raman , Arya Bhatt etc. and rocked the world.

They took part in many Quiz competitions and proved themselves as rock changers. “It's the supreme art of education to awake joy in creative expression and creative knowledge.” The school has always endeavoured to realize this goal by drawing out the hidden potential and tapping the untapped talent in children through a slew of activities and opportunities.

Recommendations

It is said that what we see and hear affects our personality. Hence, here are some recommendations to boost up our students when they are caught up in a stressful week. What is better than to watch 3 best friends fight together against a common enemy? Well, that is why we suggest Harry Potter. When in need of some mystery, watch Enola Holmes and when you desperately need humor, watch The Boss Baby. Well, for those who enjoy creating their own imagination instead of following others, here are some good read recommendations - Sherlock Holmes, Collection of stories in "The Day I Stopped Drinking Milk" and "The Lost Temple."

Parental TIPS

Just as adults, it is normal for kids to feel stressed or pressurised. They may even have mixed emotions but it is important to talk to them and maintain a sense of communication.

Give your child enough time to understand the concept, do not expect them to grasp every topic immediately

Chieftain Message

Ms. Meeta Kaur Chandhok

Education is not just about learning things. It is about understanding and grasping informative knowledge. We work together to bring out the best in our students no matter how the situation is. We will continue to work along with our staff and students for a better future. This newsletter is a glimpse of all the extravagant activities that were conducted in a month. I hope it inspires the students to work even harder in the future.

Ms. Dolly Chauhan

“Education is not only collection of information, but something more meaningful, for man making, life giving and character- building.” We are living through the darkest times where the pandemic has brought the mankind to its knees. Our institution has come up with great teaching learning process and students are updated with recent technologies by online sessions. Now this is the time for us to transform this DISASTER INTO AN OPPORTUNITY with same zeal and enthusiasm.

Ms. Anita Chauhan

The most important part of education is proper training in the PRIMARY ". We believe the journey through School is a special one, where the children are at the heart of the decisions we make. We ensure they are happy, confident, inspired, disciplined, loyal and thus strive towards independent learning and academic success. Our motto ' Touching Mind, Shaping Future' is our guiding force and we remain committed to our endeavour.

Heartfelt Note

Dear Students,
Always believe in yourself. Do not focus on what you cannot do ; take a look at what you are capable of. Let your talent shine bright and make your mark with its aura. Hold positivity in your heart and do well. All the best for your future!☑
